

Cross-League Transfers

BOWL-Relegation · GM & commissioner guide

What this is

A transfer is how a BOWL-Relegation GM acquires a player from an external professional league (SHL, KHL, DEL, Liiga, NL, or ELH). The other club is run by the AI. You do not message that club — the site simulates the negotiation, then the league office approves the deal.

What this is not

It is not a trade between two human GMs. Those still go through the Trade Tool. It is also not a loan office, junior/AHL pipeline, or a way to send a BOWL player out of the league.

The short path

1. Open Transfer Tool · 2. Pick league, team, and player · 3. Pay the PTA fee plus optional cash or BOWL players · 4. AI accepts, counters, or declines · 5. Commissioner publishes · 6. You apply the move in FHM.

House rules

- Relegation only. Logged-in GMs with an active team membership.
- Direction: you acquire one player from an AI external club. Human GMs on the other side are blocked — talk to them directly.
- Eligible leagues: SHL, KHL, DEL, Liiga, National League (NL), and ELH. Juniors, NCAA, and AHL are out of this tool.
- Compensation is cash and up to two BOWL players. Draft picks are not allowed.
- KHL: the player must be off contract. There is no PTA agreement, so a player still under KHL contract is blocked.
- European players under contract pay a PTA / transfer fee. European UFAs age 22+ follow the no-fee UFA path.
- Fees are the confirmed table at a \$95,500,000 salary cap and scale if the live cap or team budget ceiling changes.
- PTA plus extra cash cannot exceed your remaining budget (cap minus current roster AAV).
- The AI is deliberately tough. Fair packages get through; fleeces are countered or declined.
- Approved deals post to the same Discord #confirm-trade channel as trades, then you apply the move in FHM. The site roster updates on the next CSV import.

PTA fee table at the \$95.5M cap

League	Fee
SHL	\$400,000
Liiga	\$375,000
NL	\$350,000
DEL	\$325,000
ELH	\$300,000
Other / default	\$350,000

Age overlay (used when age is known): under 22 = \$250,000 · ages 22–25 = \$350,000 · age 26+ = \$450,000. These dollars move with the cap. Example: if the cap doubled, a \$350,000 fee would become \$700,000.

1. Open the tool

Sign in as a Relegation GM. In the GM / Admin header, click Transfer Tool. That page is Relegation-only.

The screenshot shows the BOWL-Relegation interface. The header is dark blue with the BOWL logo and text 'BOWL-Relegation Boys of Winter League'. Below the header is a navigation bar with links: GM / ADMIN, Help/Tips, Attendance Tracker, AP, Achievements, Trade Market, AI Trade Tool, Finances, RFA Offers, **Transfer Tool** (highlighted), and BOWL Six. The main content area has a light blue background. On the left is a vertical sidebar. The main content area contains a yellow box labeled 'EXAMPLE WALKTHROUGH' with the title 'Cross-League Transfer Tool'. Below the title is a paragraph: 'Acquire players from external pro leagues (KHL, SHL, DEL, etc.). The external club is simulated by AI; fair offers are accepted and sent to the league office for final approval.' Another paragraph follows: 'Compensation is **cash and optional BOWL players only** — draft picks cannot be included. PTA fees scale with the current salary budget (\$95.5M reference).' Below this is the text 'Your team: **Stockholm Sentinels**'. There are three dropdown menus: 'External league' with the text '— Select league —', 'External team' with the text '— Select team —', and 'Player to acquire' with the text '— Select player —'. At the bottom of the form is a green button labeled 'SUBMIT FOR AI REVIEW'.

Figure 1. Transfer Tool is in the GM header. League, team, and player start empty until you choose a league.

2. Build the offer

Choose external league, then team, then player. The site shows the required PTA fee, the league cap, and your remaining budget. Enter at least that PTA amount, add cash if needed, and optionally tick up to two of your players. Notes are optional. Then submit for AI review.

Player to acquire

Lukas Johansson ABI 74 POT

Required transfer costs

Required PTA / transfer fee: \$350,000
League cap / team budget ceiling: \$95,500,000
Your remaining budget: \$8,250,000

- European PTA transfer fee: \$350,000.
- Standard European pro contract includes NHL Out clause.
- Contract: 1 year(s) remaining on current deal.

Your compensation package

PTA / transfer fee (USD)

350000

Cash sweetener (USD)

1650000

Optional players to send (max 2)

☐ Prospect A — RW, ABI 62 / POT 76

☐ Depth forward — C, ABI 68 / POT 69

Notes (optional)

Example: player reports after the SHL season.

SUBMIT FOR AI REVIEW

Figure 2. Example SHL offer. Names and dollars are samples; your live page uses current import data.

3. Read the AI answer

Accept (about 97%+ of the club's valuation) goes to the commissioner. A counter (roughly 72-97%) asks for more cash or a player; you can accept the counter or revise. Below that, the deal is declined. KHL players still under contract are blocked before valuation.

Transfer proposal #18

Status: **ai_counter** · AI: counter

Transfer: Stockholm Sentinels acquires from Färjestad BK

Incoming players:

- Lukas Johansson

Stockholm Sentinels sends:

- PTA / transfer fee: \$350,000
- Cash sweetener: \$550,000

AI partner response

Färjestad BK is interested in Lukas Johansson but wants more compensation. Current offer: \$900,000. Their 1 \$1,500,000. Consider adding roughly \$630,000 in cash or a player of similar value.

Counter-offer

Minimum ask: \$1,500,000 · Your offer: \$900,000

Suggested additional cash: \$630,000

ACCEPT COUNTER-OFFER

RESUBMIT REVISED OFFER

For GMs and the league office · September 2026

5 / 7

4. League office publishes

Commissioners open Admin, then Cross-league transfer proposals. Approve & publish writes the transaction news and posts to #confirm-trade. Deny returns a note to the GM. After approval, make the move in the FHM save.

Transfer proposal #18

Status: **pending_commissioner** · AI: accept

Transfer: Stockholm Sentinels acquires from Färjestad BK

Incoming players:

- Lukas Johansson

Stockholm Sentinels sends:

- PTA / transfer fee: \$350,000
- Cash sweetener: \$1,650,000

Färjestad BK accepts the package for Lukas Johansson. Your offer (\$2,000,000) meets their valuation (\$1,800,000). Proposal forwarded to the league office for final approval.

APPROVE & PUBLISH Deny

Figure 4. Commissioner queue and the approve / deny actions on a pending proposal.

Status meanings

pending_ai	Just submitted; the AI partner is evaluating.
ai_counter	Close but short. Accept their counter or revise cash / players.
ai_declined	Too far below value, or blocked by a rule (for example KHL still under contract).
pending_commissioner	AI accepted. Waiting on the league office.
published	Approved. News is up and Discord #confirm-trade has the post. Apply it in FHM.
commissioner_declined	League office denied. Check the note on the proposal.

Applying the move in FHM

- Wait until the proposal is published. Do not move the player in FHM on a counter or a decline.
- After it is published, transfer the player in the FHM save the same way you apply a confirmed trade.
- The website roster updates on the next CSV import — same pattern as the Trade Tool.

Quick reminders

- One player in per proposal in this version.
- Picks cannot be added, even by editing the form.
- If the required PTA is more than your remaining budget, you cannot submit.
- Questions on a live deal go to the league office, not the AI club.
